RoHS Declaration - Certificate of Compliance

This is to certify that the Kamaya series of resistor products listed below comply with the European RoHS (Restriction of Hazardous Substances) legislation banning the use of lead, mercury, cadmium, hexavalent chromium, PBB, PBDE (including Deca-BDE) and PFOS . Some products are completely Pb-free while others are compliant by exemption 7(c)-I in the Annex of EU Directive 2002/95/EC.

All products are backwards compatible and have a maximum 260 C solder temperature rating. All products, except RC series, have a moisture sensitivity level of "1" per IPC/JEDEC J-STD-020C . RC series has a moisture sensitivity level of "2a."

All product shipped after January 1, 2005 is RoHS compliant and will have barcode labels marked with "PBF" or "PBF/RoHS," indicating product is RoHS compliant.

Additional information and/or complete material listings for products can be obtained by contacting Doug Corbin at dcorbin@kamaya.com.
